

### **How do I log into the online catalog?**

Just searching the catalog does not require logging in. If, however, you want to be able to see the items you have checked-out, renew items, or put holds on items you will need to set-up a personal account. To set-up an account you must have a Eureka Public Library card and a PIN #. Please stop by the library to create a PIN #. After receiving your PIN #, click on the “My Account” tab on the upper right side of our website homepage and follow the instructions.
